Written by Steve Potter and revised by a senior examiner, Martin Rowland, this AQA AS Biology Student Unit Guide is the essential study companion for Unit 1: Biology and Disease.

"This revision book has everything that I wanted when I was revising my Biology for AS-Level. It has clear concise revision notes and notes pages for you to add your own notes as you go along" Myrevisionnotes is a series founded by what I thought was wrong with revision books for A-level. They simply didn't work for me and then I realised that this was because they weren't mine! Simply these revision guides are a collection of clear and concise revision notes, just what you need to know presented in an easy to read format. Simple right?

AQA approved. Develop your students' scientific thinking and practical skills within a more rigorous curriculum; differentiated practice questions, progress tracking, mathematical support and assessment preparation will consolidate understanding and develop key skills to ensure progression. - Builds scientific thinking, analysis and evaluation skills with dedicated Working Scientifically tasks and support for the 8 required practicals, along with extra activities for broader learning - Supports students of all abilities with plenty of scaffolded and differentiated Test Yourself Questions, Show You Can challenges, Chapter review Questions and synoptic practice Questions - Supports Foundation and Higher tier students, with Higher tier-only content clearly marked - Builds Literacy skills for the new specification with key words highlighted and practice extended answer writing and spelling/vocabulary tests

Two new titles that provide comprehensive coverage of the syllabus. Units 1 and 2 of Biology for CAPE® Examinations provide a comprehensive coverage of the CAPE® Biology syllabus. Written by highly experienced, internationally bestselling authors Mary and Geoff Jones and CAPE® Biology teacher and examiner Myda Ramesar, both books are in full colour and written in an accessible style. Learning objectives are presented at the beginning of each chapter, and to assist students preparing for the examination, each chapter is followed by questions in the style they will encounter on their examination papers.

Develop experimental, analytical and evaluation skills with topical biology examples, practical assessment guidance and differentiated end-of-topic questions in this updated, all-in-one textbook for Years 1 and 2. Written for the AQA A-level Biology specification, this revised textbook will: - Provide support for all 12 required practicals with plenty of activities and data analysis guidance. - Develop understanding with engaging and contemporary examples to help you apply your knowledge, analyse data and evaluate findings. - Give detailed guidance on the mathematical skills needed with support throughout, examples of method and a dedicated 'Developing mathematical skills' chapter. - Offer regular opportunities to test understanding with 'Test yourself' questions, differentiated end-of-topic questions and 'Stretch and challenge' questions. - Support exam preparation with synoptic questions, revision tips and skills. - Develop understanding with free online access to 'Test yourself' answers, 'Practice' question answers and extended glossaries*.

Now in its 37th edition, and compiled in association with the Publishers Association, this is the most authoritative, detailed trade directory available for the United Kingdom and the Republic of Ireland, listing over 900 book publishers. Comprehensive entries include, where available: - full contact details including addresses and websites - details of distribution and sales and marketing agents - key personnel - listing of main fields of activity - information on annual turnover, numbers of new titles and numbers of employees - ISBN prefixes including those for imprints and series - details of trade association membership - information on overseas representation - details of associated and parent companies. In addition to the detailed entries on publishers, the Directory offers in-depth coverage of the wider UK book trade and lists organizations associated with the book trade: packagers, authors' agents, trade and allied associations and services. The directory is also available to purchase as an online resource, for more information and a free preview please visit www.continuumbooks.com/directoryofpublishing

Cambridge Global English (1-6) is a six-level Primary course following the Cambridge Primary English as a Second Language Curriculum Framework developed by Cambridge English Language Assessment. Activity Book 1 provides additional practice activities to consolidate language skills and content material introduced in Learner's Book 1. Nine units correspond with the topics, texts and language input of Learner's Book 1 with each lesson of the Learner's Book supported by two pages in the Activity Book. Learning is reinforced through activities clearly framed within the 'I can' objectives of the course, opportunities for personalisation and creative work and a higher level of challenge to support differentiation. Each unit in the Activity Book ends with a quiz, offering more in depth assessment for learners. CEFR Level: towards A1.

This book provides simple, clear, in-depth explanations of all the topics in the AQA GCSE specification 4180 syllabus but it will prove invaluable to students at many levels on many courses and to the independent reader. It can be used as a stand-alone home study course, as a classroom text, as a reference text or just for pleasure for those who love to think about what makes people tick. Psychology describes up-to-date research as well as some classic psychology studies and even debunks one or two psychology research myths. It leads the reader through all the topics in the syllabus as a teacher would in a classroom setting. Topics are presented as a series of lessons followed by "Check Your Understanding" sections, which are designed to help you check and retain the information in each lesson. An assessment record provided at the end of the book will help you keep track of your progress. Lessons are interactive with many opportunities to jot down your thoughts and reactions, reflect on how a topic relates to your own experience, discuss with other people and become more involved with the material presented. Students can pinpoint the topics they are studying for GCSE by using the table mapping the GCSE specification against the lessons in this book. For those studying outside formal classrooms there are guidelines about how best to approach your studies. The book assumes that readers have no previous knowledge of psychology and among the topics covered are: • Conformity and Obedience - would you press a button to kill someone just because you are told to do so? Many people would, it seems. • Sex and Gender - do girls and boys, men and women behave so differently? If so, why? • Memory - how does memory work and how accurate is it? • Non-Verbal Communication - do we reveal our true feelings in our body language? • Development of Personality - what exactly is Anti-Social Personality Disorder? • Prejudice and Discrimination - are we bound to discriminate against people who are unlike us? • Learning - how to remove your fear of spiders/snakes/flying/open spaces or anything else using the principles of learning. • Aggression - is aggression born into us? Is it in our hormones? Or do we learn to fight? • Research Methods and the Ethics of Psychology - psychology is based on evidence, not just ideas. But what type of study constitutes good evidence and how should we treat the people in our studies?

Comprehensive student-friendly resources designed for teaching Cambridge International AS and A Level English Language (syllabus 9093 for first examination in 2015). The core aim of this Coursebook is to help students to develop and apply the key skills they need to achieve in AS and A Level English Language. They will build the skills needed for assessment through frequent activities. Divided into two distinct parts for AS and A Level studies, the book covers a wide range of reading skills, such as understanding aspects of style, voice and tone. It also addresses the conventions of key kinds of writing and spoken language, from scripted speeches to travel articles, and looks at how they can capture these conventions in their own work.

This revised set of resources for Cambridge International AS and A Level Business syllabus (9609) is thoroughly updated for the latest version of the curriculum. Written by experienced authors, the Coursebook provides comprehensive coverage of the syllabus. Accessible language combined with the clear, visually-stimulating layout makes this an ideal resource for the course. Questions and explanation of key terms reinforce knowledge; different kinds of activities build application, analytical and evaluation skills; and case studies contextualise the content making it relevant to international learners. It provides thorough examination support for all papers with exam-style questions with each chapter and an extensive Paper 3 style case study with each unit. The student CD-ROM contains revision aids, further questions and activities. A Teacher's CD-ROM is also available.
