The personal story of the former Secretary of State traces her childhood in segregated Alabama, describes the influence of people who shaped her life and pays tribute to her parents' characters and sacrifices. Reprint. A best-selling book.

Explores issues in American newspapers during the early 1900's such as breaking the page one tradition, specialists in the newsroom, headlines, and departmentalizing the newsroom.

Rhetorical analyses of the Pauline letters concentrate on the way in which Paul went about persuading his readers by means of his letters. Normally scholars employ ancient rhetorical models to explain this. D. Francois Tolmie's study represents the first attempt to reconstruct Paul's rhetorical strategy in the Letter to the Galatians in a different way, namely by concentrating on the letter itself in order to develop the best categories for describing the way in which Paul tried to persuade his readers.

Teaching the Spoken Language is about teaching the spoken language. It presents in a highly accessible form the results of the author's important research on teaching and assessing effective spoken communication. The authors examine the nature of spoken language and how it differs from written language both in form and purpose. A large part of it is concerned with principles and techniques for teaching spoken production and listening comprehension. An important chapter deals with how to assess spoken language. The principles and techniques described apply to the teaching of English as a foreign and second language, and are also highly relevant to the teaching of the mother tongue.

Covers all aspects of this topic, detailing surgical techniques and practices, medical conditions, social controversies, and the history of cosmetic and plastic surgery.

Making Peace with God and Money This is not a book about how to make money ... or spend it ... or give it away. Rather, it's a book for anyone who has ever worried about money -- about having enough -- and it begins with a startling assumption: No amount of money will ever lift your anxiety. This may seem counterintuitive, but in Gregory Jeffrey we have an experienced guide. With degrees in business and theology, he has worked as a development consultant for two decades. In meeting with thousands of individuals to ask their support for various causes, he discovered -- to his amazement -- that some people with millions worried constantly about money; others, of very modest means, seemed immune. Apparently, making peace with money entails something other than money. This insight led Jeffrey to question every fundamental assumption we hold about wealth. With warmth, humor, and a writing style as simple as the Dakota prairie he grew up on, he offers a unique perspective on the interplay between our spiritual and financial lives. Rich with images, stories, and compassion for the millions now burdened with financial worries, Jeffrey teases out what is required of the soul who wishes to be free of anxiety. "Practical and timely, this book...will challenge you to grow in wisdom, trust, frugality, and generosity." -- Scott Hahn, best-selling author, speaker, and Scripture scholar "In striving for holiness, conversion is needed in all parts of our lives. Jeffrey goes to that place rarely examined: the intersection where wealth and God meet, and often come into conflict. As a remedy and balm, he shares with visual examples and heartwarming stories a sobering insight: to be at peace with money, you must first be at peace with God." -- The Most Reverend Samuel J. Aquila, Bishop of Fargo

It is appropriate that at a time of enormous change and opportunity in the international trade scene and procurement environment that Alan Branch has chosen to write International Purchasing and Management, a unique and authoritative guide to the essential and strategic buying of products overseas. Written in his usual lucid and pragmatic style, the book looks at all of the stages involved in the international purchasing process to secure a delivered competitive price quotation from the suppliers premises to the buyers warehouse. It particularly reflects the international environment/infrastructure in which the goods are purchased. Branch takes the reader through the initial rationale of a company business to buy overseas, the selection and negotiation processes, the importing/exporting methodology, and finally the logistics of distribution and payment. Particular emphasis is also placed upon risk areas, the competitive environment and future trends. International Purchasing and Management includes a series of case studies; additional features on cargo insurance, Inco Terms 2000 and import customs practice planning, and an appendix of trade terms and abbreviations. This book will prove essential for CIPS, BTEC and degree courses on International Trade and Marketing, Retail Buying, Logistics and Purchasing, as well as for courses by trade associations and Chambers of Commerce, and as an ?aide memoire? to importers and overseas buyers.

Essentials of Clinical Anatomy of the Equine Locomotor System presents a unique photographic record of dissections showing the topographical anatomy of the locomotor system of the horse. Readers of this book will be able to see the position and relationships of the bones, joints, muscles, nerves and blood vessels that make up each region of the forelimb, vertebral column and hindlimb. Key features: Important features of regional and topographical anatomy are presented using full-color photos of detailed dissections Anatomy is presented in a clinical context Preparations of cross-sectional anatomy facilitate interpretation of diagnostic imaging, such as ultrasonography, MRI images and CT scans All dissections are of fresh material, rather than preserved specimens, to demonstrate the appearance of tissues in the living animal, or at post mortem autopsy This new atlas is essential for anybody involved in detailed anatomical study, complex lameness evaluation or advanced imaging techniques in horses. It will be a useful guide for veterinary students, and a reference for equine vets in practice.
