profound aspects of metaphysical doctrines in greater detail. In Part I Guenon clears away certain ingrained prejudices inherited from the 'Renaissance', with its adulation of the Greco-Roman culture and its compensating depreciation-both deliberate and instinctive-of other civilizations. In Part II he establishes the fundamental distinctions between various modes of thought and brings out the real nature of metaphysical or universal knowledge-an understanding of which is the first condition for the personal realization of that 'Knowledge' which partakes of the Absolute. Words like 'religion', 'philosophy', 'symbolism', 'mysticism', and 'superstition', are here given a precise meaning. Part III presents a more detailed examination of the Hindu doctrine and its applications at different levels, leading up to the Vedanta, which constitutes its metaphysical essence. Lastly, Part IV resumes the task of clearing away current misconceptions, but is this time concerned not with the West itself, but with distortions of the Hindu doctrines that have arisen as a result of attempts to read into them, or to graft onto them, modern Western conceptions. The concluding chapter lays down the essential conditions for any genuine understanding between East and West, which can only come through the work of those who have attained, at least in some degree, to the realization of 'wisdom uncreate'-that intellectual, suprarational knowledge called in the East jñana, and in the West gnosis.

An account of the noted Mexican painter's difficult and tumultuous personal and professional life accompanies some of her most notable paintings.

Some heroes are fated to save the world. Others are meant to destroy it... Olive Kennedy is all about positive thinking. She's been stuck on Earth for the past four months, waiting for the spring equinox to arrive so she can return to Fairy World—but she's staying positive. She's hopeful she'll once again see her handsome Viking fiancé who's waiting for her. She's optimistic that her mission to reclaim the sword of Dracon—a sword of King Arthur fame and the only weapon capable of killing Theht—won't result in death and destruction. And then there's the small matter of an asteroid that's been ripped out of its orbit and is hurtling toward Earth...no biggie. One last thing—she's fated to destroy the world. To stop that prophecy from being fulfilled, she may have to sacrifice the one person she loves the most. Good thing she's staying
