In DIMENSIONS, the first volume of a trilogy, Dr. Jacques Vallee reexamines the historical record that led to the modern UFO phenomenon and to the belief in alien contact. He then tackles the enigma of abduction reports, which come from various times and various countries, as well as the psychic and spiritual components of the contact experience. In the last portion of the book, he notes the factors that inhibit research into the phenomenon--the triple coverup and political motivations--and concludes that the extraterrestrial theory is simply not strange enough to explain the facts.

In 1987 writer Whitley Strieber exposed the world to the truth about alien abduction in his landmark memoir, Communion. For the first time in years, Strieber revisits his encounter with alien intelligences-but now dramatically widens his search to explore how "the visitors" connect with today's persistent and globe-spanning reports of anomalous phenomena, such as crop circles, cattle mutilations, UFO sightings, alien abductions, near-death experiences, close encounters, and unexplained bodily implants. In his magisterial style, Strieber contextualizes these bizarre and unsettling reports with his own childhood memories of strange schools, sinister experiments, and family secrets. In exploring today's most convincing cases of unexplained phenomena, Strieber reasons that they are not unrelated

In some of his most persuasive writing, Strieber argues that the wave of mysterious episodes marks a transition that humanity is undergoing right now.
