Crone Chronicles 20-20: Intimately Inspiring Glimpses into the Lives of Wise Women 52+ *Crone Chronicles 20-20* is a priceless collection of short stories, poems and songs, (all single-sitting reads) written by female elders venerated for their experience, judgment, and wisdom. This book project created an opportunity for both published authors and first-time storytellers to craft stories about their lives that tell the world who they really are. No holds barred! Ms. Gish promotes storytelling to empower and heal; by transforming life-long learning into sage wisdom, we devote our elder years to self-awareness and self-expression for the higher good. More than just 'coming of age' stories, *Crone Chronicle 20-20* writers hold their heads high, laugh, cry, and explore what it means to grow old: unapologetically demystifying and debunking the meaning of CRONE. Societally, crones get a bad rap, labeled as 'ugly old hags' or 'witches' and are not perceived as useful or productive. This disparaging treatment of female elders is a loss for everyone who would benefit from knowing us. From loving us. From holding us. Crones often become abandoned and invisible after raising families, retiring or being alone in the world due to divorce, death, sexual preference, poverty, or illness. *Crone Chronicles 20-20* reshapes negative images of crones by reclaiming the crone archetype 'wise woman.' Writing heals while producing 'generativity' i.e., "what I've gleaned from my experience, I now want to share so future generations will also benefit." While *Crone Chronicles 20-20* cannot resolve all discrimination of female elders, it does provide a platform for individual and collective healing. Crones describe life-defining moments with an eye toward fortifying their conviction and position. These crone writers tap into the hearts and minds of readers, creating compassion for their struggles and conquests to teach us all about life. Gish created this anthology of women's stories to unveil and identify the magnificent lives of crones: amazing adventures that inspire and empower us to rise, surpassing our own hopes and expectations for what we can accomplish later in life.

She wanted purpose. She got dark magic and war. Claire Emerson is adrift. After a lifetime as a wife, mother, and grandma, she never saw divorce or loneliness coming and is desperate for some sense of purpose. But when her sixtieth birthday brings a snarky gargoyle, an annoyingly sexy wolf shifter, and an unknown magical calling, she thinks she's losing the only thing she has left: her sanity. Refusing to believe she's the powerful defender of humankind her so-called protectors claim, Claire attempts a return to her safe life... only to have her powers ignite when she's attacked by dark supernatural creatures. And without the training she was supposed to have received, she has no idea how she'll defeat sinister mages plotting her demise. Can Claire overcome creaky joints and major hot flashes in time to save the world - and her own life?
