This book is a Practical Guide in Engineering Technique for Mechanical Engineers (Degree/Diploma/AIME) whether a final year student preparing for service interview or working as a junior Engineer in construction field and doing the Piping Engineering job. It is easy to grasp the basic knowledge and the principle of piping Engineering subject through this book. This is devised and planned to be practical help and is made to be most valuable reference book. To make the book really useful at all levels, it has been written in an easy style and in a simple manner, so that a professional can grasp the subject independently by referring this book. Care has been taken to make this book as self-explanatory as possible and within the technical ability of an average professional. The requirements of all engineering professionals and the various difficulties they face while performing their job is fulfilled. The excellence of the book has been appreciated by the readers from all parts of India and abroad after publication the First Edition.

This book touches the basics of industrial trainings provided to any “Diploma Engineer Trainee” (DET) fresher’s during their probation period of 6 months to 1 year. So, the idea behind this book is to combine all those topics in a book for every diploma pursuing students who want to pursue their professional carrier in the field of production, manufacturing, quality and assembly department etc.This book will help all the fresher’s and diploma pursuing students to know what type of knowledge they actually need to get a good job in any MNCs.

'What I LOVE about it is that it not only addresses the emotional and overwhelming part about decluttering, but also talks about doing it RESPONSIBLY' Aisling Bea, Instagram Life is messy, and sometimes so is your space. As a reformed hoarder turned professional declutterer, Emma Gleeson knows how easy it is to be overwhelmed by stuff. Stuff Happens! is her life-changing guide to getting a handle on your stuff and reclaiming your peace of mind. Stuff Happens! is brimful of practical advice on . . . · what to keep and what to chuck (responsibly) · how to shop (especially if you struggle with a fast fashion habit) · how to organize (however tiny your space) Stuff Happens! is packed with clever room-by-room pointers and ingenious tips and hacks. Not only that, it will change your relationship with stuff forever. By putting you, rather than some dream of minimalism, at the heart of the process Emma explains that it's natural to have stuff and easier than you think to stop it getting out of control. Filled with aha moments from Emma's and her clients' lives, and fantastic tools for making lasting change, Stuff Happens! will transform both your space and your headspace - so that you can focus on what's really important. _____ 'Genius! Stunning and thought-provoking' Laura de Barra, author of Gaff Goddess 'So well thought out, practical and personal' Emer McLysaght 'Simply brilliant. I find myself returning to it again and again' Hilary Fannin 'Fab! As a total hoarder and un-organiser, Stuff Happens! is what the doctor ordered' James Kavanagh 'Not just practical, I loved how brilliantly Emma explained the psychology behind so many common problems we all have in dealing with our stuff' Daniella Moyles, author of Jump

Written for students in high school or undergraduate programs, Careers in Science & Engineering explores a variety of growing fields to help young adults gain a head start in learning more about the many career opportunities available for those who want t
