Miller Test Prep's study guide for the PERT is the solution for students who want to maximize their score and minimize study time. Our study guides are carefully designed to provide only that clear and concise information you need. That's precisely why we put "Clear & Concise" on our cover. The standard for the study guide industry is to "throw in the kitchen sink" when it comes to making a book, meaning you are stuck with hundreds of pages of repetitive information, redundant and confusing examples, and more practice questions than any person could be expected to work through. This results in students feeling overwhelmed, leading to reduced self-confidence, which leads to lower scores! Instead, Miller Test Prep has worked specifically with tutors. Why tutors you ask? Tutors specialize in helping students comprehend information that has already been presented by a teacher. That means they see time and again what students struggle with and what actually works to help them. They specialize in helping students who have previously failed, to succeed. If a student does not meet the minimum required score set by the state, it's an indication that the student needs more academic preparation. The high school is then required to provide postsecondary preparatory instruction. All students enrolled in public high school in the state of Florida are required to take the PERT in the eleventh grade. The PERT tests students' abilities in math, reading, and writing. The test directly tests for competence for intermediate algebra and freshman level composition. The PERT is not timed, and each section has thirty questions. Scoring The PERT is not a test to pass or fail; it's used to determine the best academic path toward college for students. It's important for students to take the PERT seriously (even though it isn't graded) to ensure they are placed in the most appropriate classes. The PERT is scored by section in a range of 50 - 150, with "cut scores" throughout (so students will get three different scores). There are three or four tiers (depending on the section) of cut scores to determine what level students are currently at.
