Booked for Christmas, a novella from debut author Lily Menon, is sure to get readers in the holiday spirit! Novelist Sophia Hart (real name: Sophie Bartholomew-Kaur-Hughes, but try fitting that on a book cover) absolutely hates her loudest critic—Evan Wolfe, evil mastermind behind the Lone Wolfe book review column. They've never met, but Wolfe's favorite pastime seems to be dumping on Sophie's unapologetically happy, magical romances. Sophie, not one to be left behind, gets her revenge in her own ways (never annoy a writer in search of a villain). When Sophie decides to throw a holiday party at her cabin, Wolfe is the last person on her mind. But the universe has a twisted sense of humor. Not only does Wolfe show up as someone's plus one, but a massive snowstorm blows in, stranding them both alone together in Sophie's cabin. Over the next few days, Sophie begins to realize that Wolfe isn't as odiously cynical a man as she'd originally thought. In fact, he's kind of...sweet. And impossibly hot. But still, Sophie's been hurt before and she has so much to lose. What she needs is one sure sign that she and Wolfe are meant to be together. Will Sophie and Wolfe get their Christmas miracle?

A lonely boy's new pet grows into a rather large dilemma—and a Thanksgiving parade offers an uplifting solution—in this charming tale from the author of *The Boy and the Airplane* and *The Girl and the Bicycle*. When Leonard takes a shortcut through the park, he finds an egg and takes it home, where it hatches into a lizard (or so Leonard thinks). Leonard names his new pet Buster and takes him all around the city: on the subway, to the library, to a baseball game, and more. But Buster keeps growing and growing—and Leonard gets the sense that Buster is longing for something Leonard can't provide. Before long, Buster becomes too big to keep, and Leonard realizes he needs to set Buster free. So Leonard comes up with an inventive plan, one that involves all the balloons Leonard can find and the annual Thanksgiving parade, in an imaginative plot twist that will spark readers' imaginations—and touch their hearts.

Presents information on using the iCloud computing software, covering such topics as configuring iPhones, iPads, iPods, and Macs for iCloud services, transferring documents between different devices, using Photo Stream, and downloading iTunes store purchases.

Jaworski, a professional Java developer, gives readers a practical, hands-on book that contains concise descriptions of security theory, complete secure applications, and thousands of lines of proven, real-world, commercial-quality code. Web site features security documentation and sample security policies, as well as code from the book.

Twenty years, seven letters, and one long-lost love of a lifetime At age 40, Samantha Verant's life is falling apart-she's jobless, in debt, and feeling stuck... until she stumbles upon seven old love letters from Jean-Luc, the sexy Frenchman she'd met in Paris when she was 19. With a quick Google search, she finds him, and both are quick to realize that the passion they felt 20 years prior hasn't faded with time and distance. Samantha knows that jetting off to France to reconnect with a man that she only knew for one sun-drenched, passion-filled day is crazy-but it's the kind of crazy she's been waiting for her whole life.

With a Haynes manual, you can do it yourself!, from simple maintenance to basic repairs. Haynes writes every book based on a complete teardown of the vehicle. We learn the best ways to do a job and that makes it quicker, easier and cheaper for you. Our books have clear instructions and hundreds of photographs that show each step. This lovingly curated collection of more than 100 recipes proves you don't need white flour or sugar to create sweet treats and delectable dishes. From pimping your porridge to kick start your day, to simple salads with a twist to impress, to mains that shine a new light on basic ingredients, to snacks and sweets that let you treat yourself in the most wholesome way possible, there are plenty of ideas here for the conscious cook to help you celebrate and enjoy real food for every occasion. Includes metric measures.

This second edition of *Microeconomics* is filled with learning-by-doing problems that give students a chance to make economics their own. These fully worked-out problems provide a step-by-step road map to help students solve numerical problems. Each problem correlates to similar practice problems at the end of each chapter. In addition, the authors include many extensive real-world examples in the text. These examples are contemporary applications of the theory and are longer and more extensive to show the evolution of the example. Each chapter opens with an example to draw readers into the topic.

The Chilton Total Car Care series continues to lead all other do-it-yourself automotive repair manuals. These manuals offer do-it-yourselfers of all levels TOTAL maintenance, service and repair information in an easy-to-use format. Each title covers all makes and models, unless otherwise indicated.
