Designed as a core textbook for courses in Advertising and Society, "Advertising, Society, and Consumer Culture" develops an integrated perspective that gives students a framework for understanding past, present, and future issues in advertising communications. Chapter contents cover the entire range of social, political, cultural, regulatory, and economic issues that surround advertising and its role in modern society. The many social issues addressed include advertising and gender stereotyping, advertising to vulnerable audiences, and the distribution of wealth in consumer society. "Advertising, Society, and Consumer Culture" intertwines the development of the consumer culture with its coverage of the historical, political, regulatory, and ethical issues of advertising. It includes clear, comprehensive tables that chronicle historical developments and key legal cases. The text is readable for undergraduates but provides enough depth to serve as a graduate-level text. Including extensive notes and a bibliography, it can be adopted independently, or alongside its companion volume, "Readings in Advertising, Society, and Consumer Culture".

Coca-Cola. Harley-Davidson. Nike. Budweiser. Valued by customers more for what they symbolize than for what they do, products like these are more than brands—they are cultural icons. How do managers create brands that resonate so powerfully with consumers? Based on extensive historical analyses of some of America's most successful iconic brands, including ESPN, Mountain Dew, Volkswagen, Budweiser, and Harley-Davidson, this book presents the first systematic model to explain how brands become icons. Douglas B. Holt shows how iconic brands create "identity myths" that, through powerful symbolism, soothe collective anxieties resulting from acute social change. Holt warns that icons can't be built through conventional branding strategies, which focus on benefits, brand personalities, and emotional relationships. Instead, he calls for a deeper cultural perspective on traditional marketing themes like targeting, positioning, brand equity, and brand loyalty—and outlines a distinctive set of "cultural branding" principles that will radically alter how companies approach everything from marketing strategy to market research to hiring and training managers. Until now, Holt shows, even the most successful iconic brands have emerged more by intuition and serendipity than by design. With How Brands Become Icons, managers can leverage the principles behind some of the most successful brands of the last half-century to build their own iconic brands. Douglas B. Holt is associate professor of Marketing at Harvard Business School.

Born in Los Angeles and raised in the epicentre of the California hot rod explosion, Ed Roth created automotive forms purely from his own imagination. He transformed car design, reinvented American hot rod culture and put Detroit on notice. Each of his creations transcended function and form to turn the American automobile into rolling sculpture.
