A young man spies on his neighbours through a crack in the wall in his Paris hotel. He witnesses every aspect of life, love, birth, betrayal and death. A fascinating and scandalous account of watching life go by.

"You, my love, will be poor, so as to be more like all other women. In order for us to live together I shall work all day and so be your servant. You will work affectionately for us both in this room - and in my absence there will be nothing beside you but the pure, simple presence of your sewing machine. You will practice patience which is as long as life - and maternity, which is as heavy as the world." The *Inferno*, otherwise translated as *Hell*, is the controversial novel by Henri Barbusse. A lone young man spies through a hole in the wall of his hotel room. Through it he witnesses all possible events of life, such as marriage, death, lesbianism, adultery and incest. The story was condemned on its English release as gross voyeurism, but can also be read as the education of one isolated individual in the tragedy of life.

Written in 1906, this is a study of voyeurism, written to the highest of standards. A young man, staying in a Paris boarding house finds a hole in the wall above his bed. Through this, he, obsessively studies the private moments and secret activities of his neighbours. Marriage, adultery, homosexuality, religion, and death are all seen in, a Dantesque manner through this little spy-hole. First published in 1921, *HELL* shocked many but, also obtained critical acclaim in the key papers, of the day.

interested in poetry; he maintains an e-mail correspondence with his estranged wife, though under a false identity; his incomprehensible teenage daughter prefers her BlackBerry to his conversation; and his best friend since childhood is refusing to return his calls. He has seventy-four friends on Facebook, but nobody to talk to. In an attempt to stir himself out of this horrible rut, Max quits his job as a customer liaison at the local department store and accepts a strange business proposition that falls in his lap by chance: he's hired to drive a Prius full of toothbrushes to the remote Shetland Islands, part of a misguided promotional campaign for a dental-hygiene company intent on illustrating the slogan "We Reach Furthest." But Max's trip doesn't go as planned, as he's unable to resist making a series of impromptu visits to important figures from his past who live en route. After a string of cruelly enlightening and intensely awkward misadventures, he finds himself falling in love with the soothing voice of his GPS system ("Emma") and obsessively identifying with a sailor who perpetrated a notorious hoax and subsequently lost his mind. Eventually Max begins to wonder if perhaps it's a severe lack of self-knowledge that's hampering his ability to form actual relationships. A humane satire and modern-day picaresque, *The Terrible Privacy of Maxwell Sim* is a gently comic and rollickingly entertaining novel about the paradoxical difficulties of making genuine attachments in a world of advanced communications technology and rampant social networking.

An extraordinary novel, told partly in verse, *The People from Heaven* takes place in 1943 in Warrensburg, New York, where Eli Bishop, a white shopkeeper, initiates a reign of terror on the populace following his rape of America Smith, a black woman. The author, John Sanford, is considered by many to be one of the finest little-known writers of the twentieth century. In his introduction, Alan Wald provides an overview of Sanford's career, his art, and his politics.

An NYRB Classics Original Winner of the Scott Moncrieff Prize for Translation 1915: Jean Dartemont heads off to the Great War, an eager conscript. The only thing he fears is missing the action. Soon, however, the vaunted “war to end all wars” seems like a war that will never end: whether mired in the trenches or going over the top, Jean finds himself caught in the midst of an unimaginable, unceasing slaughter. After he is wounded, he returns from the front to discover a world where no one knows or wants to know any of this. Both the public and the authorities go on talking about heroes—and sending more men to their graves. But Jean refuses to keep silent. He will speak the forbidden word. He will tell them about fear. John Berger has called *Fear* “a book of the utmost urgency and relevance.” A literary masterpiece, it is also an essential and unforgettable reckoning with the terrible war that gave birth to a century of war.
