It's a Book Life: Review: Premeditated by Josin L. McQuein
JOSIN MCQUEIN was born and raised in Texas, where she used novel writing as a way to escape when she needed a break from caring for ailing relatives. Now she and her three crazy dogs live in a town so small the buffalo outnumber the people, and things like subways or consistent Internet access are fictional creations of the faraway fantasy-land known as civilization.

Thoughts on the Novel: With an emphasis on revenge, Premeditated by Josin L. McQuein promised to be an entertaining read, an aspect it delivered upon. However, it would have gotten a higher rating from me had I been able to support the protagonist's actions.

The electrifying sequel to Arclight, which Pittacus Lore called "powerful and gripping." Those within the Arc thought that they were the last humans left after the world was destroyed—but they were wrong. There are more survivors. But there is also more to be afraid of. A suspenseful sci-fi thriller to hand to fans of Veronica Roth, Stephen King's Under the Dome, and Justin Cronin's The Passage. Marina thought she had solved all of the Arclight's mysteries. But there is so much more that Marina is only discovering now. There are more people out there; those in the Arclight compound aren't the only humans who survived the Fade, the monsters that destroyed civilization. Only Marina—and her friends, all of whom have connections to the Fade they never knew about—can lead everyone to the other survivors. But there are also darker dangers that even the Fade fear. The sequel to Arclight, Meridian is an intense, action-packed page-turner about the lines we draw between right and wrong, light and dark . . . and how nothing is ever that black and white.

Marina doesn't remember who she is, where she came from, or how she survived. And the Fade want her back. When one of them infiltrates the compound and recognizes Marina, she begins to unlock secrets she didn't even know she had. Marina knows she's an outsider, but she'll do anything to protect those who saved her. Whether they want her help or not.

THE SECRETS OF the past meet the shocks of the present. Aslaug is an unusual young woman. Her mother has brought her up in near isolation, teaching her about plants and nature and language—but not about life. Especially not how she came to have her own life, and who her father might be. When Aslaug's mother dies unexpectedly, everything changes. For Aslaug is a suspect in her mother's death. And the more her story unravels, the more questions unfold. About the nature of Aslaug's birth. About what she should do next. About whether divine miracles have truly happened. And whether, when all other explanations are impossible, they might still happen this very day. Addictive, thought-provoking, and shocking, Madapple is a page-turning exploration of human nature and divine intervention—and of the darkest corners of the human soul.
