Leisure Program Planning and Delivery provides a comprehensive three-step plan for successful programming of leisure services and operational management of program systems in recreation and leisure service organizations. Grounded in contemporary professional practice and real-world applications, the book provides a systematic plan for students to learn the essentials of successful recreation programming, with examples of a variety of activities in community, outdoor, sport, cultural arts, and tourism sectors of the field.

Aerial Adventure Environments: The Theory and Practice of the Challenge Course, Zip Line, and Canopy Tour Industry With Web Resource provides a comprehensive and practical introduction to the aerial adventure industry. The first of its kind, this text combines the key components of high and low ropes challenge courses, zip lines, canopy tours, and aerial adventure parks into one essential guide for students and existing professionals. Written by leading experts with both practical experience and theoretical knowledge in the field and endorsed by the Association for Challenge Course Technology (ACCT), the Professional Ropes Course Association (PRCA), and the European Ropes Course Association (ERCA), this complete resource contains the foundational information needed to understand the industry of aerial adventure environments. It provides practitioners with the tools they need to lead successful adventure experiences whether they are working directly with participants, designing and building structures, training staff, or conducting operational and marketing activities. Key terminology is clearly defined early in the text and is used consistently throughout, facilitating a complete understanding of the concepts referenced. Readers will learn about the historical beginnings and global development of the industry, the theory and fundamentals behind aerial adventure programming, facility and equipment management, personnel training, and operational guidelines. The text presents practical information on understanding the desired outcomes of a variety of clients and how to design and deliver safe, effective, and inclusive adventure experiences with consideration for self-directed, guided, and facilitated experiences. The discussions of professional competencies and current industry issues and trends, as well as tips on how to obtain training, equip readers for success in the profession. Chapter objectives, summaries, and review questions reinforce learning, and Putting It Into Practice elements illustrate practical applications of the content. Twenty-one checklists and forms in the accompanying web resource provide real-world value and include sample participant evaluation forms, job descriptions, challenge course questionnaires, program plans, and more. Special features throughout the book highlight four themes critical to the aerial adventure environment profession: Risk Management sidebars demonstrate how the management of risk must be embedded in every stage of the experience. Active Participatory Experience sidebars emphasize the hands-on nature of aerial adventures, whereby participants choose their level of challenge and their own adventures. Industry Standards sidebars cover best practices for subjects such as equipment selection, facility development, practitioner competencies, and management decisions. Social Justice and Human Diversity sidebars focus on the recent expansion of participants in aerial adventure experiences and the importance of inclusivity. Aerial Adventure Environments is at the cutting edge of this exciting and fast-growing sector of the outdoor adventure industry and is an invaluable resource for navigating the industry and understanding current practices, philosophies, and trends.

The "Park and Recreation Professional's Handbook" offers a thorough grounding in all areas of programming, leadership, operations, administration, and professionalism. It integrates foundational concepts, the latest research, and real-world examples to present readers with a complete picture of all of the skills needed for success in the field.

Community Leisure and Recreation Planning offers an up-to-date, evidence-based approach to planning community leisure and recreation facilities, programs and services. It introduces readers to key theory and best practice in the planning of effective leisure and recreation projects. The book defines planning, leisure, recreation and other key concepts and explains why a thorough planning process is essential to achieving effective outcomes. It presents a comprehensive, integrative four phase model for undertaking leisure and recreation planning, including: pre-planning, planning research, preparing a plan, and implementing, monitoring and evaluating the outputs and outcomes of a plan. It provides a conceptual rationale for each component of the planning process, a detailed explanation of the tools and techniques that can be used, and extensive examples and international case study materials to demonstrate their use. The principles and techniques explained in the book are applicable at a range of community levels from small individual sites to regions, states and even countries. This is an essential course text for all leisure and recreation courses, and invaluable reading for academics, practitioners, stakeholders and students working in leisure and recreation planning, events, culture and sport.

Recreational Therapy Assessment is an evidence-based guide connecting the recreational therapy assessment process with the International Classification of Functioning, Disability and Health (ICF) to help therapeutic recreation professionals classify individuals' functionality to better meet the needs of clients.

Leisure Services Management, Second Edition, prepares students for the challenges they'll face as entry- to mid-level recreation and leisure managers. The book outlines the essential knowledge and skills that successful managers need to have and helps students build those competencies by encouraging them to think as managers. The text's activities, projects, and examples help students connect the competencies to real-world situations. Leisure Services Management begins by presenting a firm foundation of competency-based management. Students will learn what management is, what the manager's role is, and how their work affects their agency and their customers. They will also explore specific management areas such as marketing, financial management, human resources, employee development, communication, and evaluation. Throughout the text, students will be encouraged to apply their own experiences to the concepts being discussed to deepen their understanding of the profession. For each chapter, the authors provide experiential learning activities that simulate real on-the-job situations. Each of these activities asks students to assume one of the many roles of a new manager. They'll learn to deal with day-to-day management activities by completing work assignments and projects similar to those they'll assume as a manager. The activities will help students develop the competencies they'll need in order to meet the challenges of this evolving field. New to this edition of Leisure Services Management are the following student-friendly features: Updated sidebars in which professionals in the field offer early career advice for future managers Real examples from all three sectors—public, nonprofit, and commercial—giving a broad perspective of parks and recreation, tourism, sport, therapeutic recreation, and outdoor recreation International perspectives and examples, encouraging students to think globally Information about the exam for becoming a Certified Park and Recreation Professional (CPRP) The text also includes a web study guide, which includes links to sample forms from the actual files of leisure managers to assist students in understanding and using important management tools. With an overview of key concepts by chapter, detailed case studies, a glossary, and a competency scorecard, the web study guide will help students build their knowledge of the content area, apply the information learned to their current work environment or a future internship, and prepare for future certifications. The competency-driven approach of Leisure Services Management, Second Edition, assists readers in gaining the knowledge and practicing the skills needed to begin a career in leisure management. Bolstered by the practical information in this text, new managers can contribute to the success of their organization as they enjoy the challenges and rewards of their new position.

The baby boomers—those born between 1946 and 1964—are a generation that consists of nearly 76 million Americans. Beginning in 2011, this large and influential population will begin their transition out of the workforce. As baby boomers enter retirement, they will be looking for opportunities in fitness, sports, outdoors, arts and cultural events, and other activities that suit their vibrant lifestyles. With their varied life experiences, values, and expectations, baby boomers are predicted to redefine the meaning of recreation and leisure programming for mature adults. Though many researchers have forecast the boomers' impact on the future, only Leisure Programming for Baby Boomersaddresses key information that recreation and leisure professionals need in order to make program decisions with baby boomers in mind. The authors combine their research, programming, and marketing expertise to provide insights into the values and lifestyle choices of boomers and offer programming and marketing strategies to reach this large and influential population. Leisure Programming for Baby Boomerswill help you move beyond the traditional offerings of bingo, art classes, and social dances to capture the attention and imagination of your baby boomer community. This comprehensive guide offers these features: -An in-depth review of current research to help you understand the values, interests, and needs of the boomer generation -Guidance in adopting a "boomer lens" so you can more easily recognize the opportunities in working with this group and create and market programs that appeal to the values of this unique generation -The Cochran Baby Boomer Quiz, a tool that can be used not only in assessing the programming preferences of the boomers in your community, but also in testing your staff's knowledge of boomers and preparing them to work more effectively with this group -Strategies, guidelines, and ready-to-use ideas for boomer-specific programming in arts and culture, outdoor recreation, education, wellness, and tourism -Marketing templates and strategies that will attract boomers and keep them coming to your programs With Leisure Programming for Baby Boomers, you'll discover what distinguishes the baby boomer generation from previous generations in regard to their demographic makeup, gender differences, cultural influences, brand loyalty, consumer behavior, and spending patterns. Based on current research, Leisure Programming for Baby Boomerexplains the boomer generation in terms of five value areas specific to recreation and leisure programming: cultural influences, healthy aging and society, retirement, leisure pursuits, and economic levels. Using this knowledge, you'll learn how to consider these generational values to create effective marketing messages and plan appropriate programming. Leisure Programming for Baby Boomerspresents a range of detailed program ideas and formats that fulfill the interests of this new clientele so you can start offering new programs right away. It also offers guidelines and examples that will help you plan your own programs to meet the needs of your community. You'll find all the tools you need to market your new programs, including techniques for attracting boomers to your programs and marketing templates that make implementing your marketing strategies simpler. Information on key topics such as marketing psychology; advertising beyond the brochure; motivating, recruiting, and communicating at the front lines; and creating and maintaining a focused image will help you better understand how to market programs. In this demand-driven occupation, recreation professionals must be prepared to market and deliver a wide range of leisure opportunities to serve the boomer generation. Is your recreation or leisure program ready for the baby boomers? Leisure Programming for Baby Boomerswill help you understand the unique profile of the boomer generation and respond with creative programs that will add value and quality to the leisure lives of this new generation of mature adults.

The Encyclopedia of New York State is one of the most complete works on the Empire State to be published in a half-century. In nearly 2,000 pages and 4,000 signed entries, this single volume captures the impressive complexity of New York State as a historic crossroads of people and ideas, as a cradle of abolitionism and feminism, and as an apex of modern urban, suburban, and rural life. The Encyclopedia is packed with fascinating details from fields ranging from sociology and geography to history. Did you know that Manhattan's Lower East Side was once the most populated neighborhood in the world, but Hamilton County in the Adirondacks is the least densely populated county east of the Mississippi? New York is the only state to border both the Great Lakes and the Atlantic Ocean; the Erie Canal opened New York City to rich farmland upstate . . . and to the west. Entries by experts chronicle New York's varied areas, politics, and persuasions with a cornucopia of subjects from environmentalism to higher education to railroads, weaving the state's diverse regions and peoples into one idea of New York State. Lavishly illustrated with 500 photographs and figures, 120 maps, and 140 tables, the Encyclopedia is key to understanding the state's past, present, and future. It is a crucial reference for students, teachers, historians, and business people, for New Yorkers of all persuasions, and for anyone interested in finding out more about New York State.
