Prized possessions of English poet and peer Lord Byron are currently being exhibited at the University of Edinburgh. The items are from the poet's final trip to Greece, a country he visited quite ...

"George Gordon Byron was born on 22 January 1788 and he inherited the barony in 1798. He went to school in Dulwich, and then in 1801 to Harrow. In 1805 he went up to Trinity College, Cambridge, later gaining a reputation in London for his startling good looks and extravagant behaviour. His first collection of poems, Hours of Idleness (1807), was not well received, but with the publication of the first two cantos of Childe Harold's Pilgrimage (1812) he became famous overnight and increased this fame with a series of wildly popular 'Eastern Tales'. In 1815 he married the heiress Annabella Milbanke, but they were separated after a year. Byron shocked society by the rumoured relationship with his half-sister, Augusta, and in 1816 he left England for ever. He eventually settled in Italy, where he lived for some time with Teresa, Contessa Guiccioli. He supported Italian revolutionary movements and in 1823 he left for Greece to fight in its struggle for independence, but he contracted a fever and died at Missolonghi in 1824." "Byron's contemporary popularity was based first on Childe Harold and the 'Tales', and then on Don Juan (1819-24), his most sophisticated and accomplished writing. He was one of the strongest exemplars of the Romantic movement, and the Byronic hero was a prototype widely imitated in European and American literature."-BOOK JACKET>Title Summary field provided by Blackwell North America, Inc. Humorous and ironic, daring and flamboyant, sardonic yet idealist, his work encompasses a sweeping range of topics, subjects, and models, embracing the most traditional and the most experimental poetic forms.

This volume comprises the complete poetic works of Byron. As well as including such works as "Childe Harold", "Don Juan", "The Two Foscari", "The Lament of Tasso" and "The Vision of Judgement", it also contains his shorter lyrical poems.

George Gordon Byron, 6th Baron Byron, FRS (22 January 1788 - 19 April 1824), commonly known simply as Lord Byron, was a British poet, peer, politician, and a leading figure in the Romantic movement. Among his best-known works are the lengthy narrative poems, Don Juan and Childe Harold's Pilgrimage, and the short lyric poem, "She Walks in Beauty".Byron is regarded as one of the greatest British poets and remains widely read and influential. He travelled extensively across Europe, especially in Italy, where he lived for seven years with the struggling poet Percy Bysshe Shelley. Later in his brief life, Byron joined the Greek War of Independence fighting the Ottoman Empire, for which Greeks revere him as a national hero.He died in 1824 at the age of 36 from a fever contracted while in Missolonghi. Often described as the most flamboyant and notorious of the major Romantics, Byron was both celebrated and castigated in life for his aristocratic excesses, including huge debts, numerous love affairs - with men as well as women, as well as rumours of a scandalous liaison with his half-sister - and self-imposed exile.He also fathered Ada, Countess of Lovelace, whose work on Charles Babbage's Analytical Engine is considered a founding document in the field of computer science, and Allegra Byron, who died in childhood - as well as, possibly, Elizabeth Medora Leigh out of wedlock.

Described as 'Mad, bad and dangerous to know' by one of his lovers, Lady Caroline Lamb, Lord Byron was the quintessential Romantic. Flamboyant, charismatic and brilliant, he remains almost as notorious for his life - as a political revolutionary, sexual adventurer and traveller - as he does for his literary work. Yet he produced some of the most daring and exuberant poetry of the Romantic age, from 'To Caroline' and 'To Woman' to the satirical English Bards and Scotch Reviewers, his exotic Eastern tales and the colourful narrative of Childe Harold's Pilgrimage, the work that made him famous overnight and gave birth to the idea of the brooding Byronic hero.

Selected poems written by Lord Byron.

Fiona MacCarthy makes a breakthrough in interpreting Byron's life and poetry drawing on John Murray's world-famous archive. She brings a fresh eye to his early years: his childhood in Scotland, embattled relations with his mother, the effect of his deformed foot on his development. She traces his early travels in the Mediterranean and the East, throwing light on his relationships with adolescent boys - a hidden subject in earlier biographies. While paying due attention to the compelling tragicomedy of Byron's marriage, his incestuous love for his half-sister Augusta and the clamorous attention of his female fans, she gives a new importance to his close male friendships, in particular that with his publisher John Murray. She tells the full story of their famous disagreement, ending as a rift between them as Byron's poetry became more recklessly controversial. Byron was a celebrity in his own lifetime, becoming a 'superstar' in 1812, after the publication of Childe Harold. The Byron legend grew to unprecedented proportions after his death in the Greek War of Independence at the age of thirty-six. The problem for a biographer is sifting the truth from the sentimental, the self-serving and the spurious. Fiona MacCarthy has overcome this to produce an immaculately researched biography, which is also her refreshing personal view.
