Though reaching ever further toward the skies, today's cities are overshadowed by multiple threats: climate change, overpopulation, social division, and urban warfare all endanger our metropolitan way of life. The fundamental tool we use to make sense of these uncertain city futures is the imagination. Architects, artists, filmmakers, and fiction writers have long been inspired to imagine cities of the future, but their speculative visions tend to be seen very differently from

scientific predictions: flights of fancy on the one hand versus practical reasoning on the other. In a digital age when the real and the fantastic coexist as near equals, it is especially important to know how these two forces are entangled, and how together they may help us best conceive of cities yet to come. Exploring a breathtaking range of imagined cities—submerged, floating, flying, vertical, underground, ruined, and salvaged—Future Cities teases out the links between speculation and reality, arguing that there is no clear separation between the two. In the Netherlands, prototype floating cities are already being built; Dubai's recent skyscrapers resemble those of science-fiction cities of the past; while makeshift settlements built by the urban poor in the developing world are

already like the dystopian cities of cyberpunk. Bringing together architecture, fiction, film, and visual art, Paul Dobraszczyk reconnects the imaginary city with the real, proposing a future for humanity that is firmly grounded in the present and in the diverse creative practices already at our fingertips.

Monthly current affairs magazine from a Christian perspective with a focus on politics, society, economics and culture.

The third book in the military science fiction series is “a splendid homage to the grand tradition of the old seafarer’s tale” (Roger MacBride Allen, author of the Star Wars Corellian Trilogy). While recovering from the physical and emotional wounds he sustained in Challenger’s Hope, Nick Seafort is named as the liaison between the wealthy planters of Hope Nation and the United Nations Navy. The lurking, acid-spewing, fish-shape aliens are a real threat, and everyone is on edge. When the fleet returns to Earth, dissent grows among the people of Hope Nation, who feel

abandoned by the military and left at the mercy of the alien horde. The Seafort Saga continues as Nick Seafort takes on powerful rebels at home, the cold-blooded aliens, and his own self-doubt. He must make a choice that could save Hope Nation, but would also sentence him to death.

A “thoroughly researched, stranger-than-fiction” history of the world’s tiniest rebel nation, filled with intrigue, armed battles, and radio pirates (Robert Jobson, author of *Prince Philip’s Century*). In 1967, a retired army major and self-made millionaire named Paddy Roy Bates cemented his family’s place in history when he inaugurated himself ruler of the Principality of Sealand, a tiny dominion of the high seas. And so began the peculiar story of the world’s most stubborn micronation on a World War II anti-aircraft gun platform off the British coast. Sealand is the raucous tale of how a rogue adventurer seized the disused Maunsell Sea Fort from pirate radio broadcasters, settled his eccentric family on it, and defended their tiny kingdom from UK government officials and armed

mercenaries for half a century. Incorporating original interviews with surviving Sealand royals, Dylan Taylor-Lehman recounts the battles and schemes as Roy and his crew engaged with diplomats, entertained purveyors of pirate radio and TV, and even thwarted an attempted coup that saw the Prince Regent taken hostage. Incredibly, more than fifty years later, the self-proclaimed independent nation still stands—replete with its own constitution, national flag and anthem, currency, and passports. Featuring rare vintage photographs of the Bates clan and their unusual enterprises, this account of a dissident family and their outrageous attempt to build a sovereign kingdom on an isolated platform in shark-infested waters is the stuff of legend. “Memorable . . . This idiosyncratic history entertains.”
