Nearly all of the essays in *Styles of Radical Will* stand the test of time because Sontag's approach is irreproachably modern (she is certainly America's mother of modernism/postmodernism) in its absolute refusal to look at her subjects in any easy or expected way; Sontag is not afraid to criticize the banalities of some of our most celebrated culture-heroes, while propounding not what is "...embalmed, immortal, unequivocally (and merely) 'beautiful'," but work that retains its "...youthful ...

A brilliant, clear-eyed new consideration of the visual representation of violence in our culture--its ubiquity, meanings, and effects Watching the evening news offers constant evidence of atrocity--a daily commonplace in our "society of spectacle." But are viewers inured -or incited--to violence by the daily depiction of cruelty and horror? Is the viewer's perception of reality eroded by the universal availability of imagery intended to shock? In her first full-scale investigation of the role of imagery in our culture since her now-classic book *On Photography* defined the terms of the debate twenty-five years ago, Susan Sontag cuts through circular arguments about how pictures can inspire dissent or foster violence as she takes a fresh look at the representation of atrocity--from Goya's *The Disasters of War* to photographs of the American Civil War, lynchings of blacks in the South, and Dachau and Auschwitz to contemporary horrific images of Bosnia, Sierra Leone, Rwanda, and New York City on September 11, 2001. As John Berger wrote when *On Photography* was first published, "All future discussions or analysis of the role of photography in the affluent mass-media societies is now bound to begin with her book." Sontag's new book, a startling reappraisal of the intersection of "information", "news," "art," and politics in the contemporary depiction of war and disaster, will be equally essential. It will forever alter our thinking about the uses and meanings of images in our world.

In eight stories, this singular collection of short fiction written over the course of ten years explores the terrain of modern urban life. In reflective, telegraphic prose, Susan Sontag confronts the reader with exposed workings of an impassioned intellect in narratives seamed with many of the themes of her essays—the nature of knowing, our relationship with the past, and the future in an alienated present.

This third essay collection by America's leading essayist brings together her most important critical writing from 1972 to 1980, in which she explores some of the most influential artists and thinkers of our time.

With the publication of her first book of criticism, *Against Interpretation*, in 1966, Susan Sontag placed herself at the forefront of an era of cultural and political transformation. “ What is important now, ” she wrote, “ is to recover our senses In place of a hermeneutics we need an erotics of art. ” She would remain a catalyzing presence, whether writing about camp sensibility, the films of Jean-Luc

Godard and Alain Resnais, her experiences as a traveler to Hanoi at the height of the Vietnam War, the aesthetics of science-fiction and pornography, or a range of modern thinkers from Simone Weil to E. M. Cioran. She opened dazzling new perspectives on any subject she addressed, whether the nature of photography or cultural attitudes toward illness. This volume, edited by Sontag's son David Rieff, presents the full texts of four essential books: *Against Interpretation*, *Styles of Radical Will* (1969), *On Photography* (1977), and *Illness as Metaphor* (1978). Also here as a special feature are six previously uncollected essays including studies of William S. Burroughs and the painter Francis Bacon and a series of reflections on beauty, aging, and the emerging feminist movement. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

Susan Sontag has said that her earliest idea of what a writer should be was "someone who is interested in everything." Thirty-five years after her first collection of essays, the now classic *Against Interpretation*, our most important essayist has chosen more than forty longer and shorter pieces from the last two decades that illustrate a deeply felt, kaleidoscopic array of interests, passions, observations, and ideas. "Reading" offers ardent, freewheeling considerations of talismanic writers from her own private canon, such as Marina Tsvetaeva, Randall Jarrell, Roland Barthes, Machado de Assis, W. G. Sebald, Borges, and Elizabeth Hardwick. "Seeing" is a series of luminous and incisive encounters with film, dance, photography, painting, opera, and theatre. And in the final section, "There and Here," Sontag explores some of her own commitments: to the work (and activism) of conscience, to the concreteness of historical understanding, and to the vocation of the writer. *Where the Stress Falls* records a great American writer's urgent engagement with some of the most significant aesthetic and moral issues of the late twentieth century, and provides a brilliant and clear-eyed appraisal of what is at stake, in this new century, in the survival of that inheritance.

A collection of one of our most powerful intellectual's short fiction *Debriefing* collects all of Susan Sontag's shorter fiction, a form she turned to intermittently throughout her writing life. The book ranges from allegory to parable to autobiography and shows her wrestling with problems not assimilable to the essay, her more customary mode. Here she catches fragments of life on the fly, dramatizes her private griefs and fears, lets characters take her where they will. The result is a collection of remarkable brilliance, versatility, and charm. Sontag's work has typically required time for people to catch up to it. These challenging works of literary art—made more urgent by the passage of years—await a new generation of readers. This is an invaluable record of the creative output of one of the most inquisitive and analytical thinkers of the twentieth century at the height of her power.

A second volume of journals shares intimate reflections on the writer's artistic and political development during a trip to Hanoi at the peak of the Vietnam War and throughout her film-making years in Sweden before the dawn of the Reagan era.
