Levelling ( or  
Leveling) is a branch  
of surveying, the  
object of which is: i) to  
find the elevations of

# Where To Download

given points with respect to a given or assumed datum, and ii) to establish points at a given or assumed datum. The first operation is required to enable the works to be designed while the second operation is required in the setting out of all kinds of engineering works.

The basic aim of the  
seventeenth edition of

# Where To Download

Surveying, Volume-I,  
is the same as that of  
the earlier editions,  
namely, to present the  
fundamentals of the  
subject in a simplified  
manner and to  
illustrate the basic  
concepts in a simple  
and lucid language so  
that even a beginner  
can understand it. A  
large number of  
worked examples and
