The clock would only stop for shooting fouls, timeouts, injuries, and the administration of technical fouls. The clock will continue to run for the remainder of the game, regardless if the point differential gets closer than 25-points.

Even though teenaged girl Jackie Mitchell once struck out Babe Ruth and Lou Gehrig, women are still striking out on the hardball diamond. This book builds on recently published histories of women as amateur and professional players, umpires, sports commentators and fans to analyze the cultural and historical contexts for excluding females from America's pastime. Drawing on anthropological and feminist perspectives, the book examines the ways that constructions of women's bodies and normative social roles have pushed them toward softball instead of baseball. Sportswriter accounts, Title IX sex-discrimination suits, and interviews with players explore the obstacles and the social isolation of females who join all-male baseball teams, while also discussing policies that inhibit the practice.

Female Gladiators examines the legal and social history of the right of women to participate with men in contact sports. The impetus to begin legal proceedings was the 1972 enactment of Title IX, which prohibited discrimination in educational settings, but it was the Equal Protection Clause of the U.S. Constitution and the equal rights amendments of state constitutions that ultimately opened doors. Despite court rulings, however, many in American society resisted--and continue to resist--allowing girls in dugouts and other spaces traditionally defined as male territories. When the leagues continued to bar girls simply because they were not boys, the girls went to court. Sarah K. Fields examines the legal and cultural conflicts over gender and contact sports that continue to rage today.

Includes the sport's official playing rules, pitching regulations, referee signals, and field diagrams for fast and slow pitch
