This book offers a deeper understanding of Mexico's history, institutions, religion, cultural output, leisure, and social customs.

This is Che Guevara's famous last diary, found in his backpack when he was captured by the Bolivian Army in October 1967. It became an instant international best-seller. Newly revised, with a preface by Che's eldest son Camilo and extraordinary unpublished photos, this is the definitive, authorized edition of the diary, which after his death catapulted Che to iconic status throughout the world.

Belisario Domínguez fue pionero de la libertad de expresión en México, hizo reclamos que todavía tienen vigencia y exaltó la libertad individual, los derechos humanos y el progreso, ya fuera desde su periódico El Vate o años después, desde la tribuna del Senado en su caracter de legislador, con un valiente discurso que le costaría la vida. Este libro recorre su ejemplar vida y conducta irreprochable.

“An epic work of literary creation . . . There could be no greater vindication of the wonders of the lands and people of Latin America than Memory of Fire.” —The Washington Post Eduardo Galeano’s monumental three-volume retelling of the history of the New World begins with Genesis, a vast chain of legends sweeping from the birth of creation to the era of savage colonialism. Through lyrical prose and deep understanding, Galeano (author of the celebrated Open Veins of Latin America) recounts creation myths, pre-Columbian societies, and the brutality of conquest, from the Andes to the Great Plains. Galeano’s project to restore to history “breath, liberty, and the word” unfolds as a unique, powerful work of literature. This daring masterpiece sets the past free, weaving a new kind of history from mythology, silenced voices, and the clash of worlds. Genesis is the first book of the Memory of Fire trilogy, which continues with Faces and Masks and Century of the Wind.

The award-winning New York Times bestseller about the extraordinary things that can happen when we harness the power of both the brain and the heart Growing up in the high desert of California, Jim Doty was poor, with an alcoholic father and a mother chronically depressed and paralyzed by a stroke. Today he is the director of the Center for Compassion and Altruism Research and Education (CCARE) at Stanford University, of which the Dalai Lama is a founding benefactor. But back then his life was at a dead end until at twelve he wandered into a magic shop looking for a plastic thumb. Instead he met Ruth, a woman who taught him a series of exercises to ease his own suffering and manifest his greatest desires. Her final mandate was that he keep his heart open and teach these techniques to others. She gave him his first glimpse of the unique relationship between the brain and the heart. Doty would go on to put Ruth’s practices to work with extraordinary results—power and wealth that he could only imagine as a twelve-year-old, riding his orange Sting-Ray bike. But he neglects Ruth’s most important lesson, to keep his heart open, with disastrous results—until he has the opportunity to make a spectacular charitable contribution that will virtually ruin him. Part memoir, part science, part inspiration, and part practical instruction, Into the Magic Shop shows us how we can fundamentally change our lives by first changing our brains and our hearts.

One man’s obsession with Artforum magazine takes us on a hilarious journey to the ultimate meaning of the very creation of art Artforum is certainly one of César Aira’s most charming, quirky, and funny books to date. Consisting of a series of interrelated stories about his compulsion to collect Artforum magazine, this is not about art so much as it is about passionate obsession. At first we follow our hapless collector from magazine shops to used bookstores hunting for copies of Artforum. A friend alerts him to a copy somewhere and he obsesses about actually going to get it—will the shop be open, will the copy already be sold? Finally he takes out a subscription, but then it never comes, so he hounds the mailman. There’s the day his stash of Artforums gets rained on, but only one absorbs the water. And interspersed is a wacky chapter about the mystery of the broken clothespins. “How weird.” “How crazy.”

¿Qué pasaría si diez escritores nacidos en la década de los setenta escribieran acerca de sus años escolares? ¿Qué historias contarían? ¿Sus historias serán muy distintas a las tuyas o tendrán muchas cosas en común? Más importante aún: ¿cómo era ser adolescente en los años ochenta y noventa, cuando el mundo funcionaba de manera análoga ¡y no teníamos internet!? En Ruta 70 no hay dos historias que se parezcan siquiera un poco. Los personajes son dispares, los conflictos que enfrentan son completamente diferentes, el mundo que los rodea es absolutamente distinto, aun cuando todos se sitúan en un entorno mexicano. De hecho, además haber nacido en México, en la década de los setenta, lo único que estos diez autores tienen en común es que todos ellos escriben con garra. Al leer estos cuentos tendrás oportunidad de asomarte a ese tiempo en que estaba de moda peinarse el copete con brillantina y grabar en casettes vírgenes los grandes éxitos de la radio; evocan los viejos salones de las escuelas, las calles de provincia, los sabores del pie de piña, la torta de cafetería, los juegos, las modas, el soundtrack que sonaba en aquel momento.
